## **Certificate of Volunteering, Game Development Club 2022/23/2**

Rita Takács and Ferenc Csizovszky hereby certify that Pedram Negahbanaghdami (Neptun ID: ALWITU) participated in the Game Development Club as a volunteer in the 2022/23 spring semester at the Faculty of Informatics, Eötvös Loránd University. The Game Development Club was in close cooperation with the Student Support Centre, Budapest, Hungary.

Pedram Negahbanaghdami's role in the Game Development Club as a club leader was to popularize the topic of game development for Computer Science Students at the Faculty of Informatics, ELTE. The volunteer activity was carried out in English.

As the head of Game Development Club, Pedram Negahbanaghdami founded the game development club with the purpose of bringing like-minded people together to create, share knowledge and learn. They organized weekly meetings during the whole semester, where the main focus was on sharing knowledge regarding Unity development and C# language, as well as providing external sources that are available for game developers such as asset store.

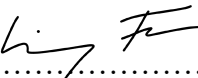

Budapest, 2023.10.25.
